## BUDGET DEVELOPMENT

### BD-106 Organizational Lock

Date Issued/Rev: 3/08/2017

**General Description:** This procedure explains how to lock and unlock organizations within Budget Development. Organizational locks at higher organizational levels prevent users with subordinate organizational security from making changes to indices within the “Create Budget Worksheet” option. The locking process has a cascading effect; when you lock/unlock an organization, all organizations beneath it become locked/unlocked as well. Also, you cannot lock or unlock the highest organization for which you have access.

**Responsible Manager:** Office of Planning, Budget and Analysis (OPBA)  
HSC Budget Office

#### Important Information

- The Budget Planner lock dates are listed in The UNM Budget Development Calendar. This calendar is posted on the OPBA web site <http://budgetoffice.unm.edu/>.
- Organization hierarchy information can be found on the E-Print report FGRORGH, Organization Hierarchy Report.

#### Things to Remember

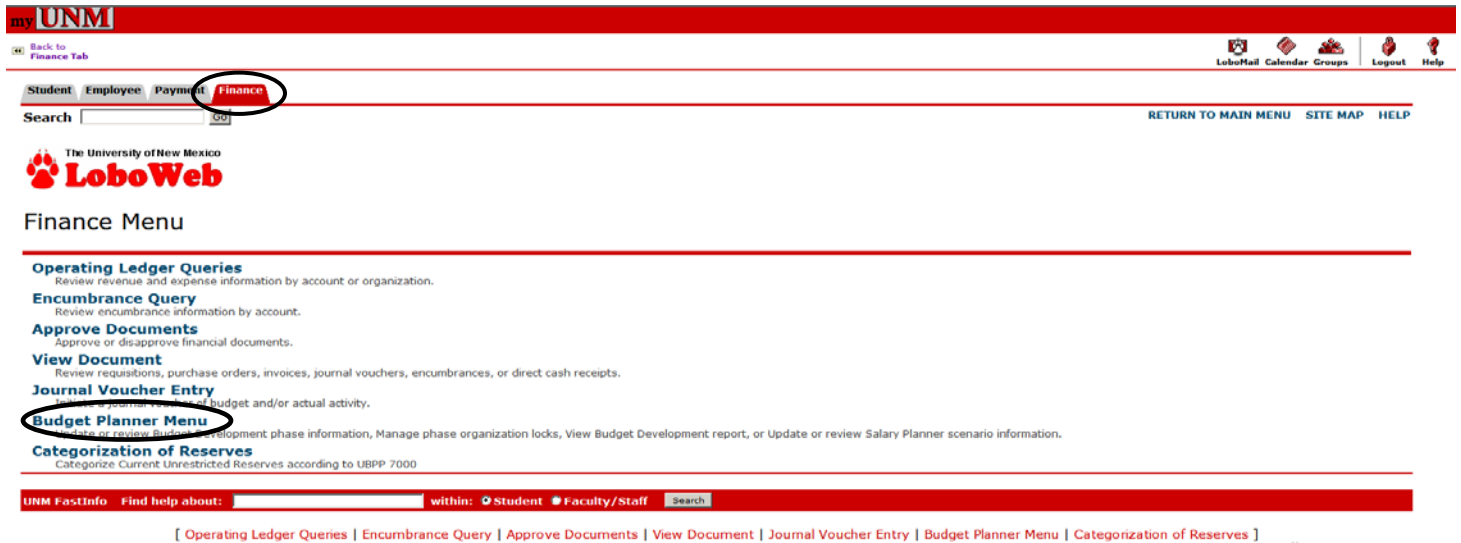

- Locked = Approved
- Unlocked = Unapproved and changes can be made to indices within “Create Budget Worksheet”
- You cannot lock or unlock the highest organization for which you have access. For example, if David has access to ABC - Level 3 organization he can:
  - update all indices under the organization ABC in “Create Budget Worksheet”
  - lock/unlock all of the organization ABC subordinate orgs
  - however, he cannot lock/unlock the ABC organization code
- An asterisk (\*) next to a locked organization status indicates that a subordinate organization is unlocked
- Locks/unlocks cascade downward

#### Lock or Unlock an Organization

1. Login to myUNM
2. Login to LoboWeb using one of the three options listed below:
  - Click on “ENTER LOBOWEB” in the LoboWeb (Employees) section. Then select the “Finance” tab
